

## FAQ - Radon Mitigation Assistance Grant

**1. I am using an electronic radon monitor to test my home, what needs to be included in the radon test result report to be eligible?**

The radon test result report from a C-NRPP certified electronic monitor must include the following items:

- Brand and model of the detector.
- Address where the test was completed.
- Testing period of at least 3 months which is indicated with dates.
  - Ex: Month/Day/Year – Month/Day/Year
- Long-term radon results in Bq/m<sup>3</sup> that indicates levels above 200 Bq/m<sup>3</sup> within the testing period.

**2. Where can I find certified radon mitigators for quotes?**

There is a list of the C-NRPP certified mitigators available at <https://c-nrpp.ca/find-a-professional/>.

**3. How long does it take for my application to be processed?**

While we can typically process applications quickly as staff capacity allows, applications may take up to 1 month to be processed.

**4. Does LungNSPEI decide which company to use based on the quotes?**

No. You, the applicant will decide which of the two companies you wish to proceed with based on the submitted quotes.
